# OSM SERIES LED CEILING MOUNT OYSTER RANGE

**SMART, SLIM LINE & ENERGY EFFICIENT**

The new Syntech OSM Series of LED Ceiling Mount Luminaires deliver the advantages of LED technology along with ambient and motion sensor control.

This range is an ideal replacement for legacy incandescent, or fluorescent based Oysters fittings. The LED light engine used in our luminaires is up to 75% more energy efficient and via its sensor technology delivers user friendly lighting in line with application requirements.

The low profile LED Light engine allows for a range of stylish slim line designs with eased of installation. LED delivers extended luminaire life than conventional light sources with up to 30,000 hours of hassle free lighting.

The OSM range offers a choice of 3 popular designs and three sizes.

## KEY TECHNICAL FEATURES

- Available in 6 popular designs and 3 colours
- Die cast alloy base - UV resistant cover.
- Available with and without motion/daylight sensors
